Here's why buyers this resource

Loved this resource! My students had a blast trying to find each other's treasure!

— Taylor M

My students enjoyed this activity, it kept them engaged and interested in learning about maps, and they got to be outside, which is always a bonus. Thank you!

— Christian M.

My students had so much fun creating their own treasure map for a final project. This is a great resource for mapping and helping students understand location and movement.

- Ms. B
