Here's why buyers this resource

This resource added more pizzazz to our exploration and practice with comic strip writing. My students took on the challenge.

– Christine E

My students really enjoyed this activity! They loved being able to make their own comic. I loved the list of examples of onomatopoeia. Overall, a great, engaging activity!

- Amanda M.

My students love drawing and creating illustrations for reading units. I thought this was a great way to see their understanding of Onomatopoeia. They were very engaged and wanted to share their comic strips with the class! There was also little prep for these activities which I loved. – Alexis M
