Find objects
that are a
certain length

Measure
specific
objects in
the room

Here's why buyers this resource

“This was a fun scavenger hunt for my students. They enjoyed going around the room and measuring items. They had great discussions as they measured. Super fun and engaging.”
— Amanda B

“I used this resource for online teaching and it worked great! All the items on the worksheets were items students could find at home. All of my students seemed to enjoy the activity.”
— Jessica P.

“My students loved this resource. They were so engaged when it came to measuring the room. All of them were running around the room with their rulers measuring items. They were able to use the right terms and measured appropriately with the ruler.”
- Stephanie L
